

FIBER OPTIC MICRODUCT 5/3.5, WHITE (WITH STRING)

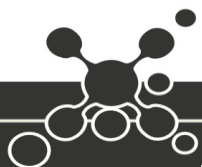

MR-5/3.5-BIA-P

Fiber optic microduct 5/3.5, white (with string) (400m coils) - halogen free microduct, complies with PN-EN 61386-1 standard. Available only in white color. Can be pulled in existing installation ducts or electrical installation pipes. Blowing in and out of fiber optic microcables is fast and easy, so it is possible to replace cables with new ones, to eliminate inactive line or to remove damages.

Microducts are packed in 400m coils.

- Halogen-free microduct
- Complies with PN-EN 61386-1
- Resistant to internal pressure min. 15 bar
- Low internal friction (<0.12) for maximum blowing lengths
- Material PE
